## Meet Your Councillor

Name: Rachel Reed

Where are you likely to be seen in the village:

In all the open green spaces with my dog Rosie and various members of my family.

Why are you a Parish Councillor: It's a great way to have a positive impact on the community we live in.

When not volunteering as a Parish Councillor what are you likely to be doing:

Watching my family play cricket.

What would people be surprised to know about you: I have a certificate in Streetworks Evacuation and Reinstatement: signing, lighting and guarding!

## Bishops Hull HUB

Let's do something about LONELINESS - When people think about loneliness, they assume that only the elderly are affected, this however is far from the truth. Loneliness has many different causes and it affects people of all ages. It's often linked with things that could prevent you spending time with other people, such as: living or working alone, retirement, illness or disability, bereavement, moving to a new area, job, school or university, social anxiety (social phobia), etc. However, you do not have to be on your own all the time to feel lonely. Many people for example, feel lonely in a relationship. Other significant life events such as having a baby or a relationship breakdown could also lead to feelings of loneliness. Many of you will know of my desire to assist others (of all ages) in the fight against the hidden monster that is Loneliness. It is my intention to run a series of informal talks, giving my thoughts along with some practical advice, that I believe will really make a difference in the seemingly unwinnable battle against loneliness. These local events will be free of charge and open to everyone. I'll give further details next month. In the meantime, if you would like the dates and times as soon as I receive them, please do contact me at john.hunt@somerset.gov.uk or text me on 07880 794554.

John Hunt

Used stamps collection

If you would like to donate your used postage stamps to raise funds for the Childrens Hospice Southwest, there is a collection box at the Bishops Hull post office.

## Parish Council News - Resolutions made at September meeting:

- The Clerk will request additional information from the Bishops Hull Playing Fields Trust before the Parish Council will consider their request to take over ownership and responsibility for the play park on the playing fields
- The Community news advertising rates will stay the same price for 2023/24
- The Clerk to request additional information regarding a Memorial on the Playing Fields for Barnaby Webber so that the Parish Council can consider a donation
- To request an additional ZIPP bay at the end of Bishops Hull Road where it meets Wellington Road
- Speed Indicator Device to be moved location next week

Next meeting date is Thursday 5th October, 7pm at the HUB.

Speed Indicator Device update - Some of you may have noticed that the Speed Indicator Device has been rotated in Waterfield Drive. This is because the Speed Indicator Device collects speed data from both sides of the road, so this was an experiment to see if when the device was rotated and not visible to motorists on Waterfield Drive would the speed increase. The results are below!

The initial results from the SID analysis:

The Parish's new SID (Speed Indicator Device) has shown that shockingly, in the last month the fastest speeds recorded on Waterfield drive exceeded 60mph, with 1% of vehicles driving over 45mph along the road.

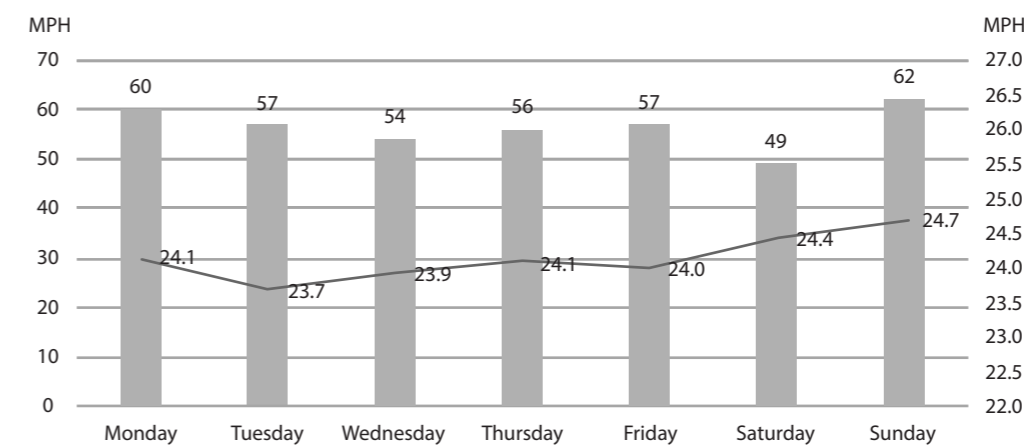

The SID that Bishops Hull Parish Council installed on Waterfield Drive has been monitoring speeds and volumes of vehicles for around a month. The data tells us that the road is most used on Thursday and Friday afternoons and evenings, that the highest speeds are recorded uphill, into the village and on Sundays overnight.

In the time that the device has been operational there have been over 35,000 vehicles passing. We have analysed the data looking for patterns of speeding behaviours, and will shortly be moving the device to a new location.

The device monitors the speed of vehicles going in both directions - so whether or not you see a speed flash up the device will record the speed of your vehicle. We can see from the data that more vehicles speed when they cannot see their speed than when they can. This means that the device does help to reduce speeding.

The below chart shows maximum and average speed by day. This shows that the fastest speeds recorded were on Sunday, and that the fastest average speeds are also on Sundays.
